IN MEMORIAM

This publication is dedicated to Deanna Rose, a 26-year old police officer with the Overland Park Police Department who was killed in January 1985 when the driver of a vehicle she had stopped ran over her. Ms. Rose had been with the Overland Park P.D. approximately two years and with the San Diego County Sheriff's Office one year prior to that.

Officer Rose's sacrifice in the line of duty was indicative of her dedication and belief in the law enforcement profession.

ACKNOWLEDGEMENTS

This publication of crime data is presented through the efforts of approximately 260 local law enforcement agencies who submitted pertinent data to the Kansas Bureau of Investigation. Their patience and assistance in providing these data are greatly appreciated.

Members of the Statistical Analysis Center staff who should be recognized for their part in this effort include Ms. Connie Kesinger who was responsible for verifying UCR reports throughout the year and the typing of this publication, Ms. Kathleen Perkins for graphic work, and Ms. Jennifer Bicknell for the data processing table productions. Data entry of the reports was completed by Ms. Karen Bartlett, Ms. Kellie Slusser, and Ms. Linda Baker, while the training functions to the local agencies were accomplished by Ms. Pam Dodson and Ms. Mary Ann Rowe. The state's crime reporting program is administered by Ms. Mary Lou McPhail who supervised the completion of the publication.

The efforts of all those mentioned will hopefully make this a useful document to the reader.

INTRODUCTION

INTRODUCTION

The Kansas Uniform Crime Reporting (UCR) program has voluntarily been a part of the National UCR program administered by the FBI for a number of years. This program collects offense data on what is referred to as Part I crimes, i.e., murder, rape, robbery, aggravated assault, burglary, larceny/theft, motor vehicle theft and arson. Arrests are collected on those crimes as well as other offenses (Part II or Class II crimes). K.S.A. 21-2501(a) and K.S.A. 21-2504 require the submission of certain crime data from all local police and sheriffs departments to the K.B.I. There were approximately 260 reporting entities for the year 1985 which is representative of nearly 100% of our state's population. The data presented in this publication will reflect offense data on the above Part I crimes and will provide some historical data as well as trend analysis.

Part I crimes are divided into two categories, violent crimes (murder, rape, robbery, aggravated assault) and property crimes (burglary, larceny/theft, and motor vehicle thefts). These specific offenses are also referred to as the Crime Index and were selected by the FBI because of their severity, their frequency of occurrence and the likelihood of being reported to local authorities. Other federal program principles are followed as well for the sake of nationwide uniformity, such as using the hierarchy rule (counting only the most serious crime in a multiple offense situation), counting only arrests made for crimes committed in an agency's jurisdiction, etc. Arson was added to the crime index in 1979 and so as not to distort data in providing trends for the other seven Part I offenses, arson data will be reported supplementally.

In an effort to update and expand the state's crime reporting program to collect more meaningful data, the K.B.I. has been in the process of implementing an Incident-Based Reporting (IBR) system which would allow for the collection of all state violations (felonies and misdemeanors). This system provides much more detailed information pertaining to each criminal incident, such as the characteristics of victim and offender, the weapon used, specific property stolen and or recovered, and relationship of victim to offender. These data will be instrumental in determining criminal modus operandi; it will be beneficial not only to policy makers, academicians and researchers, but especially the criminal justice community as a whole to more accurately reflect the crime occurring in our state. By the end of 1985, over 90% of the police and sheriff's departments had been trained in the new IBR system; however, for the sake of continuity and accuracy we also continued to collect the monthly UCR reports throughout 1985. Inasmuch as the new reporting system has not been operational for a complete year, this publication will reflect only UCR data taken from the monthly reports submitted by the local agencies. Next year's publication will include more discrete data from the new reporting system.

SECTION I

OFFENSES COMMITTED

CRIME INDEX OFFENSES

Statistical data for the eight Crime Index offenses are presented in the chapters following. Also provided are federal definitions of each offense, the number of offenses per agency and property stolen/recovered by agency. A ten-year span of crimes is also presented to show trends, as well as a projection of those crimes for 1986.

Crime Index offenses totaled 106,911 in 1985, an increase of 1.2% over 1984. According to Table 3, which reflects a ten year span of Part I crimes, the number of offenses committed in 1985 compared to 1976 decreased 1.1%. 1981 had the highest figure of offenses, that being 128,370.

Stolen property for 1985 totaled $54,705,441, a 9.7% increase from 1984. Recovered property showed a 31.5% increase over 1984, rising from $14,928,860 to $19,635,545.

Table 4 reflects clearances of crime index offenses. These clearances totaled 23,230 in 1985, a 4.5% increase over 1984 clearances.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

> "Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A. 21-3401).
>
> "Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A. 21-3402).
>
> "Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion," (K.S.A. 21-3403).

The national program defines murder as "the willful (nonnegligent) killing of one human being by another," (Uniform Crime Reporting Handbook, 1984, page 6).

Homicides in Kansas rose to 121, a drastic increase of 36.0% in 1985 compared to 89 in 1984. More than half (57.9%) of these crimes were committed with a firearm of some type and 30% of the 121 murders involved family members. The month of December reported the highest number of homicides followed by June and October respectively. Other data in this chapter will include victim/offender characteristics, circumstance of offense, etc.

JUSTIFIABLE HOMICIDE

The national program defines justifiable homicide as:

> "1. The killing of a felon by a peace officer in the line of duty,
> 2. The killing (during the commission of a felony) of a felon by a private citizen."
> (Uniform Crime Reporting Handbook, 1984, page 6)

In 1985, two persons were killed by police officers during the commission of a felony, while one person was killed by a citizen during a burglary. Two of those killed were white males, the other a black male.

NEGLIGENT MANSLAUGHTER

The Uniform Crime Reporting Handbook defines negligent manslaughter as "the killing of another person through gross negligence."

There were five reported negligent manslaughters in 1985, four of those being white males who were victims of careless handling of firearms. The fifth victim was a small child who was left unattended and died from poisoning.

RAPE

K.S.A. 21-3502 defines rape as:

> "...sexual intercourse with a person who does not consent to the sexual intercourse..."

The national UCR program does not include male sexual assaults under the rape definition; those are considered "other sex offenses" and fall within the Part II crimes category.

There were 720 reported rapes in 1985 with nearly 85% of those occurring in cities with populations of 10,000 or greater. Better than half (51.5%) of the rapes occurred between the night hours of 10:00 p.m. and 4:00 a.m. and 62.8% of the total involved no physical weapon, although the element of threat may have been involved.

According to tables 20 and 21, the most frequent rape victim is the white female between the ages of 15-19, while the most common offenders were white males and black males in the 20-24 age category. Almost one-half of the reported rapes occurred in a residence.

ROBBERY

Under the national UCR program and Kansas law, robbery is:

> "...the taking of property from the person or presence of another by threat of bodily harm to his person or the person of another or by force."

Robberies reported a 10.5% increase in 1985 compared to 1984; however, in viewing the ten-year crime span in Table 3, robberies are slightly lower than in 1976 and considerably lower than the following years. A firearm was used in 46.5% of the robberies in 1985 and again the majority of those robberies (95%) were committed in cities with populations greater than 10,000.

Robberies accounted for stolen property totaling $1,156,051 with almost one-third of that amount being taken from businesses. A breakdown of robberies by classification is found in Table 25 and Table 26.

AGGRAVATED ASSAULT

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

> "(a) Unlawfully assaulting or striking at another with a deadly weapon; or
> (b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or
> (c) Willfully and intentionally assaulting another with intent to commit any felony."

Aggravated assault is defined for the Uniform Crime Report as:

> "An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm," (Uniform Crime Reporting Handbook, 1984, page 16).

Aggravated assault generally involves the injury or intent of serious injury to a person, while simple assaults do not. Simple assaults are a Part II crime and totaled 16,871 in 1985. Aggravated assault represented 68.2% of the total violent crimes and is the violent crime category to reflect the largest increase in ten years, 51.7%.

PROPERTY CRIMES

Property crimes, which include burglary, larceny/theft and motor vehicle theft rose less than 1% in 1985 and totaled 98,222. These three offense categories represent 91.9% of the total crime index and are responsible for 97.9% of all reported stolen property.

More specific data on these crimes will be addressed in the following chapters.

BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715 as:

> "...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, watercraft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."

The national UCR program does not recognize a vehicle as a structure, therefore for UCR reporting purposes, breakins to a vehicle have traditionally been counted as larceny/thefts.

Burglaries increased in 1985 to 26,751 compared to 25,505 in 1984. Of the total burglaries, 58.2% were of residences and 68.1% were committed forcibly. Burglaries were responsible for $16,212,307 in stolen property being taken.

It is interesting to note there were fewer burglaries reported in the last three years (1983, 1984, and 1985) than in 1976 and the years following.

LARCENY (THEFT)

Kansas Statute K.S.A. 21-3701 defines theft as:

> "...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:
>
> (a) Obtaining or exerting unauthorized control over property; or
> (b) Obtaining by deception, control over property; or
> (c) Obtaining by threat, control over property; or
> (d) Obtaining control over stolen property knowing the property to have been stolen by another."

For the fourth straight year, larcenies reflected a decrease from the previous year. 1985 larcenies totaled 66,194 (which also includes attempts) and were responsible for stolen property in the amount of $21,492,335. Tables 29 and 30 depict specific types of larcenies and the monetary value taken in each category.

MOTOR VEHICLE THEFT

The national UCR program requires the reporting of motor vehicles separately from the general larceny/theft category to allow for more accurate accounting of vehicles stolen. Motor vehicle thefts increased 4.9% in 1985 totaling 5,277. A discrepancy in dollar value of stolen vehicles exists in Table 1 and Table 2 because when a vehicle is taken in the commission of a greater crime (burglary, rape, etc.) a motor vehicle theft is not tallied, but the vehicle will be counted as property taken during the primary offense.

The total value of motor vehicles stolen for 1985 was $22,500, 673 which is 41% of the total dollar value of all stolen property.

ARSON

Arson is defined in K.S.A. 21-3718 as:

> "...knowingly, by means of fire or explosive:
>
> (a) Damaging any building or property in which another person has any interest without the consent of such person; or
>
> (b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."

Arsons reported to the UCR program totaled 798 in 1985 which is a 14% decrease from 1984; however the property damage incurred in those arsons was slightly higher than in 1984. Structural property (residences, businesses and other similar type of buildings) represented 55% of the total arsons, but accounted for 85% of the total dollar damage.

As in past years data were received from the State Fire Marshal's Office under their Kansas Fire Incident Reporting System (KFIRS) and that data are presented in Tables 35-40.

ARRESTS

ARRESTS

Tables 41-47 reflect arrest data on persons arrested, cited, or summoned for both Part I and Part II criminal offenses. There were more reported arrests in 1985 than in any other year of UCR data collection with 1985 noting a 9.3% increase over 1984.

Juvenile arrests totaled 18,089, one-fifth of the total arrests. The number of juveniles handled by a department (not always involving an arrest) increased by 17.7% over 1984, which is indicative that law enforcement is generally coming into more frequent contact with juveniles than in the past.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Kansas had the misfortune of losing one police officer in the line of duty in 1985. A police woman with the Overland Park Police Department was killed by a suspect she had stopped when he ran over her with his car.

There were 1,001 police officers assaulted in 1985, a 4.2% decrease from 1984. Tables in this chapter will reflect that most officers are assaulted by hands, feet, and fists of the suspect and nearly half of the assaults occurred responding to disturbance calls.
